What is Beef Quality Assurance?

- Guides producers using science-based production practices that assure cattle well-being, beef quality and safety.
- Provides systematic information to U.S. beef producers of how good husbandry techniques can be coupled with accepted scientific knowledge.
- Includes best practices around cattle handling, facility management, cattle transportation, good record.

If you are an individual with a disability who is in need of an auxiliary aid or service to participate, please contact Melissa Wright in advance at (505) 454-1497 or mwright1@nmsu.edu

BE BOLD. Shape the Future.
